Subject: GE Marquette Monitor Mounting Kit

The Narkomed Mobile / GE Marquette mounting kit is now available. It allows the user to securely mount the Dash 3000 or Eagle 3000 to the top of the machine and the SAM module to the vertical channel below the remote display.

The kit includes adapter plates and hardware to mount the monitors plus illustrated installation instructions. The kits will be shipped boxed and unassembled and will require assembly during in-service. The top shelf of the Mobile will have pre-drilled holes to simplify this process.

Mounting Kit, GE Marquette Dash 3000-Eagle 3000 & SAM
